Truck & Bus Tires

Innovative Tire Technology | Digital Tire Monitoring Solutions

2023 Product Data Guide

Truck and Bus Tires to fit your needs.

As an international partner to the transport and logistics industry, we know the markets as well as we know the roads around the world. And we also know that ultimately, cost effectiveness is what matters.

But just like roads, no two operations are the same. That's why we developed Continental Truck Tires - the ideal solution to deliver your **Lowest Overall Driving Cost.**

DELIVERING YOUR LOWEST OVERALL DRIVING COST. One of the largest automotive suppliers and tire manufacturers in the world, Continental develops pioneering technologies to make your fleet safer, more efficient, and more connected. With innovative tire technology and digital fleet solutions, Continental optimizes your tire management. Count on Continental to recommend the best tires and solutions for your specific fleet needs.

Tires in the Steering axle position are also suitable for trailing axles on trucks and as all-position fitment where traction is not of paramount importance.

HorsePower UnTamed

Continental's Loyalty Rewards Program

HORSEPOWER

untamed

horsepowerrewards.com

Enroll today! Contact your Continental Representative to learn more!

Some Sweet Rewards For You

Sell tires. Collect points. Earn rewards. Repeat. Choose from an extensive collection of name-brand apparel, cash gift cards and more.

We Value Your Loyalty

Sell a certain number of tires and you will receive a gift and a recognition plaque. We appreciate your loyalty and now allow us to return the favor.

Earning Points is Easy

Once enrolled, you'll have 45 days from the end of the month to submit tire sales. Simply login and use the Power Page to upload invoices and submit claims. Points will be instantly deposited into your account upon claim approval.

HorsePower Untamed is available by invitation only to a select group of individual salespeople selling to fleets and users directly. No wholesale or intercompany transfers are permitted in this program. No sales may be aggregated; but must be solely the reporting participant's sales. Any tax liability is the individual's responsibility. A valid individual W-9 tax form including your SSN (not a company tax ID) must be on file with Continental to redeem in the program. As well as TD1 form for Canadian participants. Aggregation of points over groups of salesman and/or tax information that is of a business nature will not be permitted. Owners and dealer principals are not eligible to participate in this program.

3Gasing

A Next-Generation Solution for Easier Casing Management and Maximum Retreadability

Increased Belt Cord Angles

Belt features increased stiffness and improved penetration resistance. Innovative belt package designed to reduce heat and increase durability.

Increased Tread Volumes

Wider tread platform allows the casing to better support the tire's given load range. Tread features a wide cavity, with a standard retread width to provide a single platform for greater ease of retreading.

Technologically Advanced Bead Core

Core designed for structural durability and extended product life. Core is made from a tear-resistant compound at steel cord edges.

Heat Dissipating Polymers

Fuel Savings

Increased Mileage

Improved Retreadability

Standardized Casing

Application Key:

PLEASE NOTE: The tires depicted in this chart are suggested as the primary products for each segment and are subject to change depending on application. Not every product in the Continental portfolio is represented. For more information, please visit www.continental-truck.com or contact your local sales representative for the most up to date information.

Long Haul For Long-Distance Highway Driving

High Removal Mileage // Low Rolling Resistance // Even Wear // Optimal Retreadability

Engineered for your application. Tires for Long Haul use are designed for straight line, on-highway driving, distributing freight from state to state across great distances. Tires are optimized for high removal miles and fuel efficiency.

IMPORTANT NOTE: Tire Products are now classified by route. Product details are subject to change, please visit our website or contact your local sales representative for the most up to date information.

TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS

Note - Rim listed first is the measuring rim. # = Intelligent Tire Article #. Minimum Dual Spacing calculated without chains. 295/60R22.5 size designated for car carrier application. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Features & Benefits

27%

Conti EcoPlus HS3+ has a **27% improvement in removal mileage with even wear** over its predecessor, Conti EcoPlus HS3.

10%

10% improvement in de-coupler durability, an essential benefit for products in the steer/all-position category to extend tire life.

Technologically advanced cap/base compounds provide improved cut and tear resistance for increased mileage.

Tread profile reduces sensitivity to road surface, fleet, and vehicle variations allowing for improved performance throughout tire life.

Improved footprint shape delivers significant wear improvements for increased removal miles.

Built on the innovative **Conti 3G Casing** for maximum retreadability.

Applications: Long Haul

TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS

Note - Rim listed first is the measuring rim. # = Intelligent Tire Article #. Minimum Dual Spacing calculated without chains. These specifications subject to change without notice. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. 315/80R22.5 tires used on 8.25" rims are restricted to a maximum of 7610 lbs at 120 psi. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Features & Benefits

Extra load-carrying capacity with a specially reinforced **Stable Bead Technology**.

Durable casing for premium retreadability and enhanced mileage.

Noise-Reducing Tread Design for serene and comfortable travel.

A lifetime of all-weather traction with **interlocking 3D sipes**.

sensor CONNECT | Continental's Intelligent Tire

Equipped with TPMS Sensor for accurate, real-time tire pressure and temperature readings • Sensor warranted for 5 Years to minimize disruptions. • Sensor provides true casing temperature allowing preventive actions that make your tire last longer • Avoids valve damage and air leaks by mounting on the inner liner.

Learn more at www.continental-truck.com to learn more. See warranty policy for details.

Applications: Long haul, over the highway steering and all-position use, for coach and large RV use.

PLEASE NOTE: THIS PRODUCT WAS PREVIOUSLY NAMED CONTI HYBRID HS3.

TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS

Note - Rim listed first is the measuring rim. 0 = Intelligent Tire Article #. Minimum Dual Spacing calculated without chains. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Features & Benefits

Increased stiffness in the **belt package** promotes smooth, even tread wear.

Advanced tread compounding delivers long removal mileage and low rolling resistance.

Fuel Saving Edge technology designed to increase fuel efficiency and application flexibility.

Built on the **Conti 3G Casing** for maximum retreadability.

Applications: Over the road super regional steer and all position use.

Features & Benefits

<p>3-D matrix sipes provide superior traction and even wear.</p>			<p>Maximum stone ejection due to superior groove geometry.</p>
<p>Maximum fuel efficiency and high removal miles from advanced tread compounding.</p>	<p>Resists irregular wear caused from high-torque single drive position. Including heel-toe wear, thanks to rigid tread blocks that effectively control movement.</p>	<p>Built on the innovative Conti 3G Casing for maximum retreadability.</p>	

Applications: Single drive axle position for combination, long haul, super-regional and regional LTL carrier service.

 This product is 3PMSF Certified.

Features & Benefits

Advanced tread compound with super single weight reduction provides lower rolling resistance.

Features 27/32" tread depth, an **evolving sipe tread design** and closed shoulder.

Groove geometry designed with stress reduction elements to separate forces and reduce premature wear.

3-dimensional center sipes increase groove strength for longevity, while allowing more tread block flexibility.

Applications: Long haul, over the highway drive position.

Features & Benefits

Advanced tread compound provides extended original mileage and improved rolling resistance.

Closed shoulder tread design provides even tread wear while still providing excellent traction.

Patented innovative groove technology leads to minimal stone retention, extending casing life.

Offers large capacity and car carrier trucks the ability to **carry more weight without sacrificing vehicle height.**

Applications: Long haul and over the highway drive, for large capacity trucks or car carriers.

Features & Benefits

New tread cap/base compounds provide **improved wear performance** extending original tire life.

32/32" tread depth provides high mileage and low cost per mile.

Patented innovative groove technology leads to minimal stone retention, extending casing life.

Built on the **Conti 3G Casing** for maximum retreadability.

295/75R22.5 SIZE! Now you can spec the same tire size on your steer and drive tires for easy management.

Applications: Long haul, over the highway drive position.

Features & Benefits

Advanced tread compounding provides this Eco Plus version with 33% less rolling resistance than the original HDL2 DL.

32/32" tread depth provides high mileage and low cost per mile.

Patented innovative groove technology leads to minimal stone retention, extending casing life.

Minimized wear and excellent traction over the life of the tire, through a **wide, closed shoulder tread and numerous tread blocks** with multiple grip edges.

Built on the **Conti 3G Casing** for maximum retreadability.

295/75R22.5 SIZE!

Features & Benefits

Advanced tread compound and optimized tread design provide exceptional mileage.

Ultra low rolling resistant trailer tire delivers outstanding fuel efficiency in long haul applications.

Built on the **Conti 3G Casing** for maximum retreadability.

Improved sidewall construction for defense against curbing, cuts and abrasions.

Applications: Trailers and free rolling positions.

TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS

Note - Rim listed first is the measuring rim. # = Intelligent Tire Article #. Minimum Dual Spacing calculated without chains. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Features & Benefits

Advanced tread compound and optimized tread design provide exceptional mileage.

Ultra low rolling resistant trailer tire delivers outstanding fuel efficiency in long haul applications.

Built on the **Conti 3G Casing** for maximum retreadability.

Improved sidewall construction for defense against curbing, cuts and abrasions.

Applications: Trailers and free rolling positions.

Features & Benefits

Low rolling resistance compound provides excellent fuel economy at cool operating temperatures.

Advanced tread design provides long original mileage and low cost per mile.

Heavy ply construction for structural durability in large capacity applications.

Patented groove technology leads to minimum stone retention, extending casing life.

Innovative groove geometry promotes efficient water evacuation, traction and wet braking capabilities throughout tire life.

Applications: Heavy haul and long haul trailer positions.

CONTINENTAL IS YOUR LEADER IN FUEL EFFICIENCY

Continental Tires Outperformed Other Top Brands in Fuel Efficiency Tests

Pumping Out Savings Tractors travel an average of **105,000 miles** every year. With a national average of 5.91 mpg, every tractor burns **over 17,700 gallons of fuel a year**. At \$3.89/gallon, **that's over \$69,000 in annual fuel costs!** With **Continental's demonstrated 7.35 mpg fuel efficiency** in Long Haul testing, fleets could achieve **an annual costs savings of over \$13,500 per truck!***

*Savings calculations based on "NACFE 2018 Annual Fleet Fuel Study" by the North American Council for Fuel Efficiency

Long Haul Tires Selected for Test

About Long Haul Tires

Tires for Long Haul use are designed for straight line, on-highway driving, distributing freight from state to state across great distances. Tires are optimized for high removal miles and fuel efficiency. To put our level of fuel efficiency to the test, Continental tires were used in a study by the PIT Group of FPIInnovations.

Long Haul Application Test Results

Tires	Double Coin	Continental	Michelin
Steer Tire	RR680	Conti EcoPlus HS3	X-Line Energy Z
Drive Tire	FD405	HDL2	X-Line Energy D
Trailer Tire	IM 105	Conti EcoPlus HT3	X-Line Energy T
Fuel consumption (L/100 km)	32.54	31.99	32.68
Fuel economy (mpg)	7.23	7.35	7.20
Rank	2	1	3

In Long Haul applications, **Continental is proven to provide a 2.11% savings** compared to Michelin X-Line Energy.

The Test

The fuel efficiency test procedure was based on TMC Fuel Consumption Test Procedure - Type III, RP 1103A. Each tire brand was tested on three identical 2016 International Prostar tractors powered by Cummins ISX15 engines, pulling 2018 Vanguard 53-foot two-axle cube van semi-trailers, at a cruising speed of 64.6 mph (104 km/h).

CONTINENTAL DELIVERS UP TO

TrukFix Program with 360°Smart App For Emergency Roadside Assistance

About the TrukFix Program

TrukFix is Continental's emergency roadside assistance program. It is available in the U.S. and Canada to qualified National Account customers, Premier Fleet members, and OOIDA members.

Fulfilling Your Fleet Requirements

TrukFix can accommodate your fleet's emergency roadside assistance requirements. Share your preferences in advance via our online form, and TrukFix dispatchers will ensure that your needs are met. Tell us your tire/retread preferences, photo documentation requirements and more at www.TrukFix.com.

About the TrukFix Web App

360°Smart for TrukFix is a simple web app that enables the user to submit, process, and track TrukFix emergency roadside assistance requests in real-time.

It ties directly into systems used by TrukFix dispatchers, making information visible to:

- Continental TrukFix Dispatchers
- Fleet Dispatchers
- Drivers
- Fleet Managers
- Service Providers (Dealers)

Compatible with iOS and Android phones and tablets, along with desktop devices. Visit www.TrukFix.com to learn more about its features and benefits.

877-TRUKFIX - 24/7 EMERGENCY HOTLINE

Better Customer Service

- 24/7 access to professional North American dispatchers
- Verified network of commercial dealers who stock Continental and General Tire products for roadside assistance
- Request full service or simply locate the nearest dealer

Better Communication

- Real-time tracking of the incident until trucks are back on the road
- Follow-up by our dispatchers ensures your repairs are completed
- Service case history reporting, complete with failure photos

Better Pricing

- No enrollment or membership fee - pay for services as they are used
- Regulated, predictable pricing as a published tire and service program
- Simple, convenient billing through our National Account invoicing system

EPA SmartWay®

Reducing Transportation-Related Emissions and Improving Supply Chain Fuel Efficiency

Verified Low-Rolling Resistance Tire Products

The EPA has determined that certain tire product models and technologies can reduce NOx emissions and fuel use by 3 percent or more, relative to the best-selling products for line haul class 8 tractor trailers. These improvements are achieved under the following conditions:

- Tires are used in the correct axle positions.
- Verified low rolling resistance tires are installed on all of the axle positions of the tractor and trailer.
- All tires must be properly inflated according to the manufacturer's specifications.

For more information on SmartWay or to review the list of SmartWay verified low rolling resistance tires and retread technologies, visit www.epa.gov/smartway.

More tires and retreads may currently be verified by SmartWay, always review the SmartWay website for current information.

Fuel Savings

Cleaner Air

Cost Savings

Environmentally Friendly

The following Continental low-rolling resistance tire products are SmartWay verified when used on class 8, line-haul tractor trailers:

Regional For Highway & Local Driving

Long Removal Mileage // Cut/Chip Resistance // Resistance to High Scrub // Robust Casing Construction

Engineered for your application. Tires for Regional use are designed for applications where vehicles spend the majority of their time on pavement with multiple stops through inter-city operations, and mostly paved roads. Tires are optimized for high scrub, cut-chip resistance applications, as well as traction.

IMPORTANT NOTE: Tire Products are now classified by route. Product details are subject to change, please visit our website or contact your local sales representative for the most up to date information.

TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS

Note - Rim listed first is the measuring rim. # = Intelligent Tire Article #. Minimum Dual Spacing calculated without chains. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Features & Benefits

Rigid belt package with full width top belt and extra sidewall protection for increased durability.

Zigzag center groove geometry increases the number of biting edges for increased traction.

Pyramidal stone ejection system for maximum casing protection.

Built on the innovative **Conti 3G Casing** for maximum retreadability.

Mileage Improvement vs. HSR2

*Based on projected calculations.

Applications: Regional hauling and on/off road, all-position.

Features & Benefits

Advanced tread compounding provides this Eco Plus version with **20% less rolling resistance** than the original HSR2.

23/32" deep **rolling resistant tread compound** for long tread life on highway and regional road combined applications.

Sidewall with curb rib reduces damage from curbing, cuts and abrasions.

Patented innovative groove technology leads to minimum stone retention, extending casing life.

Large radial grooves for improved resistance to groove cracking.

Applications: On highway and regional hauling, all-position.

TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS

Note - Rim listed first is the measuring rim. # = Intelligent Tire Article #. Minimum Dual Spacing calculated without chains. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. 315/80R22.5 tires used on 8.25" rims are restricted to a maximum of 7610 lbs at 120 psi. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Features & Benefits

Maximum tire life expectancy and wet traction capabilities through **customized tread geometry**.

Superb wet traction capabilities with minimum wear through innovative tread compound.

Ideal for buses and larger recreational vehicles.

Applications: Steer or all-position regional/long haul, for bus or large RV traffic.

Features & Benefits

All steel radial designed for outstanding durability and maximum retreadability.

Specialized compounding delivers outstanding mileage while still providing excellent fuel efficiency.

10 ply light truck all steel casing provides increased load carrying capacity, durability and puncture resistance.

Applications: Regional haul, all-position.

Features & Benefits

Improved cap/base tread compounds for improved wear performance, wet traction and cut/chip/chunk performance.

Optimized contour and **balanced footprint distribution** for extended tread life and product performance.

Chamfered tread block geometry to withstand higher drive axle torque with reduced drive tire wear conditions such as tearing and cracking.

Built on the **Conti 3G Casing** for maximum retreadability.

Applications: Regional haul drive positions. On/Off-highway service.

Features & Benefits

All season tires ensures optimum performance in a variety of winter conditions from ice to deep snow.

Directional tread design with more than 1000 sipes provides excellent traction and lateral stability.

Siping engineered with Continental's **3D-Technology**.

More grip on snow and ice thanks to new **special winter compound**.

39% more tread volume compared to HDW by utilizing the all new Conti 3G Casing.

This product is 3PMSF Certified.

Applications: Drive axle tire for extreme weather conditions.

TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS

Note - Rim listed first is the measuring rim. # = Intelligent Tire Article #. Minimum Dual Spacing calculated without chains. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Features & Benefits

Advanced tread compound to achieve performance in high scrub application and still maintain low rolling resistance.

Patented groove technology for minimal stone retention, extending casing life.

Pyramidal stone ejection system integrated into the center groove for added casing protection.

Superior Performance in Spread-axle Trailer Applications vs. HSR2

*Based on projected calculations.

Applications: Spread-axle trailer. Long haul and regional use.

Features & Benefits

Two-layer tread construction combines high mileage performance in the cap compound with significant rolling resistance improvements in the base compound.

Narrowed groove widths result in increased pattern volume which improves wear resistance to guarantee high mileage performance.

Pocket sipe technology with full-depth sipes to enhance water displacement and improve wet performance over the life of the tire.

Applications: Long haul/Regional over the highway all-position use.

Features & Benefits

Deep tread and low void design ensures long removal miles.

Heavy siping provides **numerous gripping edges** for excellent traction on wet roads.

Open shoulder tread design for increased traction in snow.
Increased footprint contact area delivers superior traction and stability.

All season compound to deliver excellent traction in all weather conditions without sacrificing removal miles.

Applications: Drive axle tire for extreme weather conditions.

Features & Benefits

Advanced application-optimized compound adds up to significant improvements in rolling resistance and mileage.

Narrowed groove widths result in increased pattern volume which improves wear resistance to provide high mileage performance.

Low rolling resistance sidewall compound used to reduce heat through friction elimination.

Applications: Long haul/Regional over the highway trailer use.

CONTINENTAL IS YOUR LEADER IN FUEL EFFICIENCY

Continental Tires Outperformed Other Top Brands in Fuel Efficiency Tests

Pumping Out Savings Tractors travel an average of **105,000 miles** every year. With a national average of 5.91 mpg, every tractor burns **over 17,700 gallons of fuel a year**. At \$3.89/gallon, **that's over \$69,000 in annual fuel costs!** With **Continental's demonstrated 7.26 mpg fuel efficiency** in Regional testing, fleets could achieve **an annual costs savings of over \$12,800 per truck!***

*Savings calculations based on "NACFE 2018 Annual Fleet Fuel Study" by the North American Council for Fuel Efficiency

About Regional Tires

Tires for Regional use are designed for applications where vehicles spend the majority of their time on pavement with multiple stops through inter-city operations, and mostly paved roads. Tires are optimized for high scrub, cut-chip resistance applications as well as traction. To put our level of fuel efficiency to the test, Continental tires were used in a study by the PIT Group of FPIInnovations.

Regional Haul Application Test Results

Tires	Double Coin	Continental	Michelin
Steer Tire	RT606+	Conti HSL 3 (Conti Hybrid HS3)	XZE2
Drive Tire	RLB1	HDR2 Eco Plus	XDN2
Trailer Tire	RR150	Conti Hybrid HT3	XZE2
Fuel consumption (L/100 km)	34.29	32.41	34.58
Fuel economy (mpg)	6.86	7.26	6.80
Rank	2	1	3

In Regional applications, **Continental is proven to provide a 6.27% savings** compared to Michelin.

The Test

The fuel efficiency test procedure was based on TMC Fuel Consumption Test Procedure - Type III, RP 1103A. Each tire brand was tested on three identical 2016 International Prostar tractors powered by Cummins ISX15 engines, pulling 2018 Vanguard 53-foot two-axle cube van semi-trailers, at a cruising speed of 64.6 mph (104 km/h).

CONTINENTAL DELIVERS UP TO
6% FUEL SAVINGS

Urban For Inner City Traffic & Short Distances

Hours of Service // Superior Mileage // Durable Cut/Chip Compounding // Casing Durability

Engineered for your application. Urban tires are designed for inner city traffic applications where traction, hours of service and mileage are priority. Tires operating within this application normally operate through short distances experiencing heavy scrub. Tires are designed to withstand heat generation as well as heavy loads where safety is essential. Extra sidewall protection is required to protect the casing from curbing, cuts and abrasions. Casing durability is the key aspect for segment satisfaction.

IMPORTANT NOTE: Tire Products are now classified by route. Product details are subject to change, please visit our website or contact your local sales representative for the most up to date information.

Note - Rim listed first is the measuring rim. # = Intelligent Tire Article #. Minimum Dual Spacing calculated without chains. These specifications subject to change without notice. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Features & Benefits

Increased sidewall gauge for improved resistance against curbing, cuts and abrasions.

Sidewall wear indicator for visual cue to trigger rotation.

New urban tread compound for prolonged mileage performance with excellent driving characteristics.

Comfortable ride for driver and passengers through extremely quiet running tread.

Durable casing for premium retreadability and enhanced mileage.

Applications: Urban steer/all-position, city bus use.

TUBELESS TIRES ON 15 DEGREE DROP CENTER RIMS

Note - Rim listed first is the measuring rim. # = Intelligent Tire Article #. Minimum Dual Spacing calculated without chains. # - Exceeding the lawful speed limit is neither recommended nor endorsed. Overall widths will change 0.1 inch (2.5 mm) for each 1/4 inch change in rim width. Minimum dual spacing should be adjusted accordingly. 315/80R22.5 tires used on 8.25" rims are restricted to a maximum of 7610 lbs at 120 psi. Continental Tire the Americas, LLC reserves the right to change product specifications at any time without notice or obligations. Please consult rim manufacturers load and inflation limits. Never exceed rim manufacturers limits without permission of component manufacturer.

Features & Benefits

Four rib tread pattern with zigzag groove geometry for resistance to high scrub applications.

Innovative tread compound for outstanding mileage and heat reduction.

Improved bead design for increased durability and resistance to brake heat.

Extra sidewall protection for better resistance to curbs, cuts, and other sidewall abrasions.

Applications: Waste transportation and other high scrub, urban applications.

Conti360°

Continental's Fleet Services Web Portal

Accounting

Easily print or save your Continental invoices for commercial tires in PDF format. You also have the ability to download an Excel version of the list of all invoices and credits in a date range. Financial Statements are accessible for printing or saving, and you have the option of viewing your last month's statement or a real time statement. Also now includes "Dispute Invoice" functionality and dealer Proof of Service Images.

Accessibility

View the Dealer Locator to find your nearest servicing dealer. Log into your ContiConnect® tire monitoring portal if you utilize Continental's digital tire monitoring solutions, such as the ContiConnect Yard Reader. Access business intelligence and tools to keep your fleet at maximum efficiency.

Reporting

With Conti360°, you can gain insight into so many aspects of your fleet. From breakdown analysis to purchases to product performance, our reporting feature is designed to keep you in the know.

Learn more about reporting below.

Ordering

Order Continental's Digital Solutions, including replacement parts, additional tire sensors, and more, directly from the Conti360° Fleet Portal.

Training

Fleets can access the ENGAGE360° virtual training center to learn about Continental products and solutions, including opportunities to increase uptime and improve tire performance.

www.Conti360Fleet.com - YOUR 24/7 BUSINESS SOLUTION

Conti360° Reporting is designed to keep fleets in the know:

TrukFix

If your fleet participates in Continental's TrukFix roadside breakdown assistance program, you will be able to generate a detailed report of breakdowns, causes, downtime, and more.

ContiTrack2

ContiTrack2 digital tire inspections are performed by your Continental sales representative or dealer. Detailed reports on tire wear, tread depth, and recommendations to improve performance are available for viewing and printing.

CLC-Soft

Fleets who use our ContiLifeCycle partners to retread their casings have the ability to track the progress of the retread. Different types of reports are available for a 360° view.

Sales & Service

Within a specified time period, you have the ability to view product and digital solution purchases, as well as run reports of which services your dealer performed.

Construction For Durability On & Off-Road

Superior Mileage // Durable Cut/Chip Compounding // Resistance to Stone Drilling // Optimal Retreadability

Engineered for your application. Tires for Construction and On/Off Road use are designed for vocational applications such as utility trucks, concrete mixers, and dump trucks, etc., where they spend some time on the pavement but are also likely to encounter curbs, stones, debris, and tight turns. Tires are optimized for durability and traction, as well as minimal stone retention and cut-and-tear resistance.

IMPORTANT NOTE: Tire Products are now classified by route. Product details are subject to change, please visit our website or contact your local sales representative for the most up to date information.

Features & Benefits

Aggressive on/off-road tread design with enhanced cap/base compounds for **improved mileage and traction**.

Applications: Construction, coal haulers, logging and other all-position service.

Built on the innovative Conti 3G Casing with **premium off-road belt package** for maximum retreadability and increased casing life.

Self-cleaning tread design and groove geometry reduces stone retention for enhanced retreadability.

Maximum sidewall protection for improved resistance against curbing, cuts and abrasions.

sensor CONNECT | Continental's Intelligent Tire

Equipped with TPMS Sensor for accurate, real-time tire pressure and temperature readings • Sensor warrantied for 5 Years to minimize disruptions. • Sensor provides true casing temperature allowing preventive actions that make your tire last longer • Avoids valve damage and air leaks by mounting on the inner liner.

Features & Benefits

Aggressive multi-service, **all-position tread pattern** provides excellent traction in on/off road service.

Cut and tear resistant tread compound for long tread life in on/off road conditions.

Thick undertread resists casing penetration and damage for multiple retreads.

Applications: All-position fitment in on/off highway service.

Off-Road For Severe Service & Maximum Durability

Excellent Traction // Hours of Service // Cut/Tear Resistant // Casing Durability

Engineered for your application. Tires for Off-Road and Severe Service use are designed to support construction, mining, logging, and other applications where vehicles travel across challenging surfaces strewn with rocks, nails, and debris. Tires are optimized for durability and high removal mileage, as well as cut-and-tear resistance and traction.

IMPORTANT NOTE: Tire Products are now classified by route. Product details are subject to change, please visit our website or contact your local sales representative for the most up to date information.

Features & Benefits

High operational safety, long lasting service and **outstanding resistance to damage through compounds** with extreme resistance to cuts and tears.

Outstanding traction, even in harshest terrain, thanks to **tread pattern structure and geometry.**

Most durable casing design for maximum service life in demanding off-road use, also involving heavy-duty vehicles.

Applications: All-Position service for on/off road, mining and heavy mix axles.

Features & Benefits

Aggressive 19/32" open shoulder tread design provides outstanding traction in off road conditions.

Technologically **advanced cut/tear resistant tread compound** to provide long removal miles.

Circumferential protection rib engineered to withstand severe off road terrain.

Scuff rib to protect against curbing, cuts and abrasions.

Applications: Off-road severe service drive position.

Digital Tire Monitoring Solutions

Increasing Uptime, Decreasing Costs

Why invest in tire pressure & temperature monitoring?

Improve Tire Runout

Minimize irregular wear, one of the primary reasons for early tire removal.

Save Fuel

How much do you spend per month on fuel? What would 1% savings mean to your bottom line?

Save Labor and Tire Maintenance Costs

Reduce time spent on manual tire pressure checks and repairing tire issues caused by underinflation.

Reduce Roadside Breakdowns

Avoid downtime, late deliveries, and cost of approximately \$800 per incident.

Improve Safety

Help protect your drivers and other road users.

Properly inflated tires can reduce total tire-related costs by \$600 to \$800 annually per vehicle.

Actual results may vary. According to the Technology & Maintenance Council (TMC) S-2 Tire & Wheel Study Group, improper tire inflation, defined as little as 10 psi low, reduces fuel economy by about one percent, increases total tire-related costs by approximately \$600 to \$800 annually per tractor-trailer combination, and changes the tire contact patch which affects stopping and acceleration traction and vehicle handling thereby impacting vehicle safety.

Benefits of the Intelligent Tire | Equipped with TPMS Sensor

- **Accurate, real-time tire pressure and temperature** to prevent tire damage and breakdowns
- **Sensor warranted for 5 years*** to minimize disruptions to your tire program
- **Provides true tire casing temperature**, allowing preventive actions that make your tire last longer.
- **Avoids valve damage and air leaks** by mounting on the inner liner of the tire

*See Warranty Policy for details.

Intelligent Tires are ready to pair with the following solutions:

ContiConnect® Live | Real-time Monitoring

- **Ideal for real-time monitoring** of multiple vehicles in any location
- **Actionable data** even when vehicles are out on the road
- **Instantaneous alerts** at fleet, dispatch, and driver level
- **Seamless monitoring** of drop-and-hook as well as married tractor-trailers

ContiConnect® Yard Reader

Digital Tire Monitoring with Web Portal

- **Mounted in the fleet terminal** and reads sensors in a 65-foot radius*
- **Mobile-friendly web portal** displays tire data for all vehicles
- **Text & email notifications** can alert fleet personnel of detected issues
- **Ideal for vehicles that return to the fleet yard** at least once per week

*Operating radius may be affected by various factors including obstructions.

ContiPressureCheck® | On-Vehicle TPMS

- **Informs the driver in real-time** via a convenient in-cab display
- **Supports multiple trailer configurations:** married and drop-and-hook
- **Ideal for long-haul and over-the-road vehicles** that don't return to the yard frequently

ContiPressureCheck® Integrated | Remote Tire Monitoring

- **Alerts back-office personnel in real-time** to tire issues on the road
- **Potential for driver alerts** via an optional in-cab display
- **Available with the following telematics providers:**

ContiPressureCheck®

On-Vehicle Tire Pressure Monitoring System

Increased Mileage

Longer Tread Life

Longer Casing Life

Reduced Roadside Breakdowns

ContiPressureCheck® monitors a single vehicle in real-time, alerting the driver to tire pressure and temperature issues via an in-cab display. It is ideal for fleets whose trucks or buses are away from the terminal for long periods of time, and for owner-operators. Fleets benefit from extended tire and casing life, as well as increasing fuel economy and improving safety over the road.

How does it work? Tire-mounted sensors transmit tire pressure and temperature data. The data is displayed in real-time to the driver via a display screen mounted in the cab of the vehicle.

Extend the functionality of your ContiPressureCheck® system

With Telematics Integration, display tire data remotely via any of our existing telematics partners: Zonar, PeopleNet, Geotab, and Road Ready. To learn more about our integration capabilities, visit www.continental-truck.com.

ContiConnect® Yard Reader

Digital Tire Monitoring with Web Portal

Increased Mileage

Longer Tread Life

Longer Casing Life

Reduced Roadside Breakdowns

ContiConnect® Yard Reader is Continental's digital tire monitoring platform for commercial fleets, displaying tire pressure and temperature data for every vehicle in the fleet in a single web portal. It is ideal for fleets whose trucks or buses return to the terminal daily or multiple times per week. Fleets benefit from increased uptime, extended tire life, and fewer tire-related breakdowns.

How does it work? Tire-mounted sensors transmit tire pressure and temperature data to a yard reader station mounted in the fleet yard. The data is displayed in a mobile-friendly web portal. ContiConnect® fleets can also receive customizable text and email alerts to address tire issues as soon as they are detected.

Increased Mileage

Real-Time Monitoring

Longer Tire Life

Reduced Roadside Breakdowns

ContiConnect® Live via Driver App

Digital Tire Monitoring. Anytime. Anywhere.

- » Ideal for real-time monitoring of multiple vehicles in any location
- » Actionable data even when vehicles are out on the road
- » Instantaneous alerts at fleet, dispatch, and driver level
- » Seamless monitoring of drop-and-hook as well as married tractor-trailers

Address Tire Issues in Real-Time

Properly inflated tires can reduce total tire-related costs by \$600 to \$800 annually per vehicle.

Actual results may vary. According to the Technology & Maintenance Council (TMC) S2 Tire & Wheel Study Group, improper tire inflation, defined as little as 10 psi low, reduces fuel economy by about one percent, increases total tire-related costs by approximately \$600 to \$800 annually, per tractor-trailer combination, and changes the tire contact patch which affects stopping and acceleration traction and vehicle handling thereby impacting vehicle safety.

Tables & Charts & Tire Information

Medium Truck Load/ Inflation Tables

Safety Warning

Serious Injury May Result From:

- Explosion of tire/rim assembly due to improper mounting. Use safety cage and clip-on extension air hose. Only specially trained persons should mount tires.
- Tire failure due to misapplication/improper inflation/overloading.

***Follow tire manufacturer's instructions.
Check inflation pressure frequently with calibrated gauge.***

* Based on TRA | ** Based On ETRTO

*** Tire & Rim Association has adopted an official equivalency of kPa to psi values. 825 replaces the previous 830.

NOTE: Letters in parentheses denote load range for which boldface loads are maximum.

CAUTION: Always use approved tire and rim combinations for diameters and contours.
NOTE: All values are for 65 mph unless otherwise noted, for tire load and inflation at various speeds, see next pages.

* Based on TRA | ** Based On ETRTO

*** Tire & Rim Association has adopted an official equivalency of kPa to psi values. 825 replaces the previous 830.

NOTE: Letters in parentheses denote load range for which boldface loads are maximum.

Load Limits At Various Speeds

For Radial Ply Truck Tires Used On Improved Surfaces

(These Tables apply to tires only. Consult rim/wheel manufacturer for rim/wheel load and inflation capacities.)

Tire And Rim Association Standard

FOR METRIC AND WIDE BASE TIRES

The service load and minimum (cold) inflation must comply with the following limitations unless a speed restriction is indicated on the tire or the manufacturer rates the tire at 75 mph or above.

SPEED RANGE (MPH)	RADIAL PLY TIRES	
	INFL. PRESSURE CHANGE	% LOAD CHANGE
71 thru 75	+5 psi	-12%
66 thru 70	+5 psi	-4%
51 thru 65	No Increase	None
41 thru 50	No Increase	+7%
31 thru 40	No Increase	+9%
21 thru 30	+10 psi	+12%
11 thru 20	+15 psi	+17%
6 thru 10	+20 psi	+25%
2.6 thru 5	+20 psi	+45%
Creep thru 2.5	+20 psi	+55%
Creep (2)	+30 psi	+75%
Stationary	+30 psi	+105%

FOR CONVENTIONAL TIRES

The service load and minimum (cold) inflation must comply with the following limitations unless a speed restriction is indicated on the tire or the manufacturer rates the tire at 75 mph or above.

SPEED RANGE (MPH)	RADIAL PLY TIRES	
	INFL. PRESSURE CHANGE	% LOAD CHANGE
71 thru 75	+5 psi	-12%
66 thru 70	+5 psi	-4%
51 thru 65	No Increase	None
41 thru 50	No Increase	+9%
31 thru 40	No Increase	+16%
21 thru 30	+10 psi	+24%
11 thru 20	+15 psi	+32%
6 thru 10 (1)	+30 psi	+60%
2.6 thru 5 (1)	+30 psi	+85%
Creep thru 2.5 (1)	+30 psi	+115%
Creep (1) (2)	+40 psi	+140%
Stationary (1)	+40 psi	+185%

NOTES

1. Apply these increases to Dual Loads and Inflation Pressures.
2. Creep - Motion for not over 200 feet in a 30-minutes period.

Note 1: The inflation pressures shown in the minimum cold pressures for the various loads listed.

Higher pressures should be used as follows:

- A. When required by the above speed/load table.
- B. When higher pressures are desirable to obtain improved operating performance. For speeds above 20 mph, the combined increases of A and B should not exceed 20 psi above the inflation specified for the maximum load of the tire.

Note 2: Load limits at various speed for:
Tires used in highway service at Restricted Speed.
Mining and Logging Tires used in Intermittent Highway Service.

THE MAXIMUM LOAD AND INFLATION CAPACITY OF THE RIM MUST NOT BE EXCEEDED.

Load Limits At Various Speeds

Tires Rated At 75 MPH And Radial Ply Truck Tires Used On Improved Surfaces

(These tables apply to tires only. Consult rim/wheel manufacturer for rim/wheel load and inflation capacities.)

Reading Tire Information

DOT Code

Manufacturing Codes

Characters 1 & 2 = Manufacturer and Plant
Characters 3 & 4 = Tire Size Code
Characters 5/6/7 = Tire Type or Model

New Tire - D.O.T. Number

Department of Transportation

ALL TIRES USED IN U.S.A. MUST
DISPLAY A D.O.T. NUMBER.

Date of Manufacturing

Characters 1 & 2 = Week of Manufacture (01 - 53)
Characters 3 & 4 = Year of Manufacture (Last 2 Digits)

Retreaded Tire - D.O.T. Number

Manufacturing Retread Facility

Characters 1 - 3 = Retread Facility

Date of Manufacturing

Characters 4 & 5 = Week of Manufacture (01 - 53)
Characters 6 & 7 = Year of Manufacture (Last 2 Digits)

Reading Tire Information

New Generation Product Naming

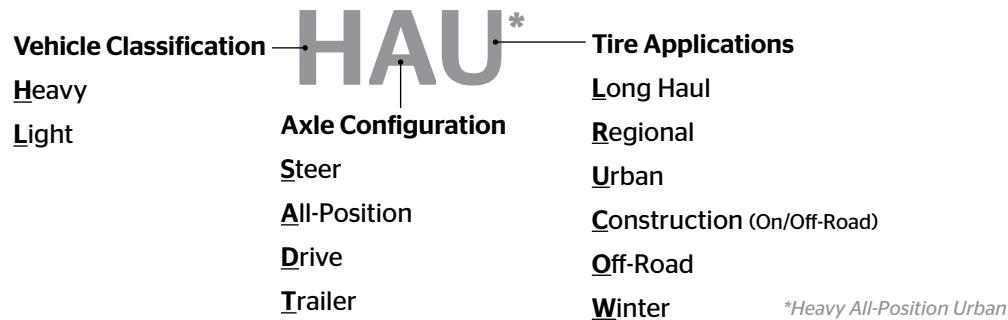

Step 1 Global Prefix

Moving forward, every new tire will begin with Conti (or ContiTread for retread), regardless of segment, region, or application. This universal prefix will help unify our diverse product line.

Step 2 Technical Area

This area provides essential information to help ensure the right tire goes on the right vehicle.

Step 3 Generation Number (1st, 2nd, 3rd, etc.)

Step 4 Optional Descriptor

Although it may be left blank, this space covers additional information about a tire's specialized characteristics to help our customers find the optimal tire.

EP Eco Plus | **DL** Deep Lug | **WT** Waste Transport | **& more...**

PLEASE NOTE: If these two characters are included, they are part of the tire name and essential to its identification. For example, a **Conti HSL 3** and a **Conti HSL 3 EP** could both exist, and would be two entirely different tires with different tread patterns, article numbers, and benefits.

Example 1: Conti HSL 3

Heavy Vehicle / Steer Axle / Long Haul Application (3rd Generation)

Example 2: Conti HSR 3

Heavy Vehicle / Steer Axle / Regional Application (3rd Generation)

Definitions

New Tire Dimensions

Aspect Ratio	Section Height Section Width
Rim Width	Linear distance between the flanges of the rim.
Static Loaded Radius	Distance from wheel axle centerline to supporting tread surface at a given load and pressure in a static condition.
Tire (Overall) Width	The width of a new tire, including 24-hour inflation growth, and including protective side ribs, bars and decorations.
Section Height	Half the difference between the overall diameter and the nominal rim diameter.
Overall Diameter	The diameter of an inflated tire at the outermost surface of the tread, including 24-hour inflation growth.
Revolutions Per Mile	Measured number of revolutions for a tire traveling one mile. This can vary with speed, load, and inflation.
Tread Width	Distance across tread from shoulder to shoulder.
Width Loaded	Tire width (overall) under rated load conditions.
Minimum Dual Spacing	Minimum dual tire centerline to centerline measurement.
Section Width	Linear distance between outside of sidewalls of inflated tire (exclusive of markings, etc.).

Low Aspect Ratio Tires

24.5 Inch Highway Size

(USING TYPICAL DESIGN DIMENSIONS)

Match Tire For Speed And Axle Weights

In a tire selection process, it is mandatory that consideration be given to selecting a tire size and load range which at least equals the maximum load requirements by axle position (steer, drive or trail). All highway truck tires have load limits established for tires used in normal highway service. Therefore, when selecting a tire for service, both the carrying capacity and speed implications must be considered.

TIRE LOAD LIMITS AT VARIOUS COLD INFLATION PRESSURES										
THE PRESSURE IS MINIMUM FOR LOAD										
MAXIMUM SPEED OF 65 (MPH)						Example for LRG				
SIZE			70	75	80	85	90	95	100	105
			(480)	(520)	(550)	(590)	(620)	(660)	(690)	(720)
11R22.5	Dual	kg	1990	2080	2160	2250	2360	2460	2560	2650 (G)
		lbs	4380	4580	4760	4950	5205	5415	5625	5840 (G)
	Single	kg	2050	2160	2260	2370	2500	2600	2700	2800 (G)
		lbs	4530	4770	4990	5220	5510	5730	5950	6175 (G)
11R24.5	Dual	kg	2110	2210	2300	2390	2500	2580	2660	2725 (G)
		lbs	4660	4870	5070	5260	5510	5675	5840	6005 (G)
	Single	kg	2190	2300	2410	2520	2650	2770	2890	3000 (G)
		lbs	4820	5070	5310	5550	5840	6095	6350	6610 (G)

For example, when selecting tires for a tractor and trailer combination with a gross combination weight (GCW) of 80,000 lbs. and an axle weight distribution of 12,000 lbs. on the steer, 34,000 lbs. on the tandem drive and 34,000 lbs. on the tandem trailer axles, the most common conventional tire sizes used are 11R22.5 Load Range G and 11R24.5 Load Range G. The load and inflation schedule according to the Tire and Rim Association tables for these sizes is shown above.

Service Descriptions

Continental Tire the Americas, LLC provides a service description onto the sidewall of all premium products.

This service description, which consists of one or more load indices and speed symbols, is located close to the tire size designation on the sidewall of the tire.

The load index relates to the maximum load carrying capacities allowed at the speed indicated by the speed symbol.

The speed symbol relates to the maximum speed allowed for the load carrying capacities associated with the load index.

The following is an example of a load index / speed symbol associated with a medium radial truck tire:

The attached chart shows the comparison of load index to load and speed symbol to maximum speed for radial truck tire products.

Consult your local Continental Tire representative for confirmation of the suitability of the tire/wheel assembly for the intended service.

SAFETY WARNING

SERIOUS INJURY MAY RESULT FROM:

Explosion of tire/rim assembly due to improper mounting - use safety cage and clip on extension air hose. Only specially trained persons should mount tires.

Tire failure due to misapplication/improper inflation/overloading - follow tire manufacturer's instructions. Check inflation pressure frequently with gauge.

A tire must always match the diameter requirements of the rim to which it is being mounted. For example, a 16 inch tire must always be mounted on a 16 inch rim. Also, when replacing the truck type radial tires, use only wheels approved for radial tires.

Safety Warnings

Tire Demounting And Mounting Safety Precautions

 **SAFETY WARNING** 
SERIOUS INJURY OR DEATH MAY RESULT FROM:

EXPLOSION OF TIRE RIM ASSEMBLY DUE TO IMPROPER MOUNTING - USE SAFETY CAGE & CLIP-ON EXTENSION AIR HOSE. ONLY SPECIALLY TRAINED PERSONS SHOULD MOUNT TIRES.

 **WARNING**

Tire and wheel servicing can be dangerous, and should be done by trained personnel using proper tool and procedures and safety precautions in the RMA's "Demounting and Mounting Procedures for Trucks/Bus Tires" and "Inspection procedures for identification of potential zipper ruptures in steel cord radial medium and light truck tires" charts and service bulletins.

Failure to comply with these procedures may result in faulty positioning of the tire and/or rim parts, and cause the assembly to burst with explosive force, sufficient to cause serious injury or death. Never mount or use damaged tires or rims.

MISAPPLICATION/IMPROPER INFLATION/OVERLOADING SAFETY WARNINGS

 **WARNING**

There is danger of serious injury or death if a tire of one bead diameter is installed on a rim or wheel of a different rim diameter.

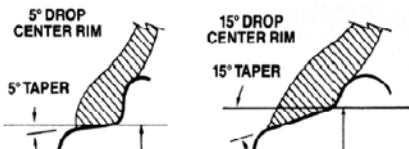

Re-assembly and inflation of mismatched parts can result in serious injury or death. Just because parts come in together does not mean they belong together. Check for proper matching of all rim parts before putting any parts together.

Always replace a tire of exactly the same bead diameter designation and suffix letters.

For example: A 16" tire goes on a 16" rim. Never mount a 16" tire on a 16.1" or 16.5" rim. A 16.1" tire goes on a 16.1" . Never mount a 16.1" tire on a 16" or 16.5" rim. A 16.5" tire goes on 16.5 " rim. Never mount a 16.5" tire on a 16" or 16.1" rim.

While it is possible to pass a 16" diameter tire over the lip or flange of a 16.1" or 16.5" size diameter rim, it cannot be inflated enough to position itself against the rim flange. If an attempt is made to seat the tire bead by inflating, the tire bead will break with explosive force and could cause serious injury or death.

Rims of different diameters and tapers cannot be interchanged. The following diagram illustrates the difference between rims of two different tapers and diameters.

The following diagram shows how beads of a 16" tire will not seat on a 16.5" rim. The beads cannot be forced out against the rim flanges by using more air pressure because this will break the beads and the tire will explode with force sufficient to cause serious injury or death.

Never assemble a tire and rim unless you have positively identified and correctly matched the parts.

Safety Warnings

Tire Demounting And Mounting Safety Precautions

WARNING

NEVER inflate beyond 40 pounds pressure to seat beads.
NEVER stand, lean or reach over the assembly during inflation.
Inspect both sides of the tire to be sure that the beads are evenly seated. If tire is mounted on a machine that does not have a positive lock-down device to hold the wheel, inflation should be done on a safety cage. If both beads are not properly seated when pressure reaches 40 pounds air pressure, completely deflate the assembly, reposition the tire and/or tube on the rim, re-lubricate and reinflate. Inflating beyond 40 pounds air pressure when trying to seat the beads is a DANGEROUS PRACTICE that may break a tire bead (or even the rim) with explosive force, possibly resulting in serious injury or death. After the beads are fully seated, pressure may be increased above 40 psi to operating pressures, not to exceed the maximum labeled on the tire sidewall.

WARNING

Permanent tire damage due to under inflation and/or overloading cannot always be detected. Any tire known or suspected to have been run at 80% or less of normal operating inflation pressure and/or overloaded, could possibly have permanent structural damage (steel cord fatigue). Ply cords weakened by under inflation and/or overloading may break one after another, until a rupture occurs in the upper sidewall with accompanying instantaneous air loss and explosive force. This can result in serious injury or death.

Any tire of having been operated and under inflated and/or overloaded must be approached with caution. Completely deflate the tire by removing the valve core before removing the tire/rim/wheel assembly from the vehicle. After removing from the vehicle, clearly identify the tire so it will not be reinflated **until carefully inspected by a trained technician** to determine the cause of under inflation, as well as any tire damage resulting from under inflation and/or overloading.

WARNING

The use of any flammable material during tire servicing is absolutely prohibited. Use of starting fluid ether, gasoline, or any other flammable material to lubricate, seal or seat the beads of a tubeless tire can cause the tire to explode or can cause the explosive separation of the tire/rim assembly resulting in serious injury or death.

This practice may also result in undetected damage to the tire or rim that could result in failure of the tire in service.

Safety Warnings

FIGURE 1

STAY OUT OF THE TRAJECTORY AS INDICATED BY SHADED AREA

Note: Under some circumstances, the trajectory may deviate from its expected path.

Always deflate tires before handling. Inflate only in safety cage.

FIGURE 2

TRAJECTORY

FIGURE 3

The air pressure contained in a tire is dangerous. The sudden release of this pressure by a tire blow-out or side ring separation can cause serious injury or death. Stay out of the trajectory as indicated by shaded area. When installing the tire/rim assembly on the vehicle, it will be impossible to stay out of the trajectory; however, at all other time you and all others must stay out of the trajectory.

WARNING

Tire explosions can cause death or personal injury or property damage.

Excessive speed in a free-running, unloaded tire can cause it to “explode” from extreme centrifugal force.

WARNING

When mounting dual disc wheels on a vehicle, be sure to carefully check and retighten or re-torque inner cap nuts before mounting the outer wheel. In demounting the outer wheel, there is a possibility that the inner cap nuts may have been loosened accidentally.

NEVER rework, weld, heat, or braze the tire/wheel/rim. Heating the rim of tire/wheel/rim. Heating the rim of tire/wheel/rim assembly can cause a tire to explode, causing serious injury or death,

NEVER hammer, strike or pry any type of tire/rim assembly while the tire contains inflation pressure. Do not attempt to seat any part while the tire contains any inflation pressure. This could result in serious injury.

Regrooving

Continental, General Tire, AmeriSteel, and Euzkadi brand truck tires that have “REGROOVABLE” molded on the sidewall may be regrooved. After regrooving, it is required that 3/32” of under tread remains to cover the top ply. It is the responsibility of the regroover to assure that all Federal Regulations are met. For further clarification, see Code of Federal Regulations: Title 49, Transportation; Parts 569 and 393.75.

WARRANTY INFORMATION

For Commercial Vehicle Tires Only

One of the largest automotive suppliers and tire manufacturers in the world, Continental develops pioneering technologies to make fleets safer, more efficient, and more connected. With innovative tire technology and digital fleet solutions, Continental optimizes tire lifecycle management to deliver the lowest overall driving cost.

ContiLink

Your Connection to Dealer Support & Resources

Standard Claims Processing

If you can name it, you can claim it... pricing, shipping, sales tax, advertising and waste fee claims are just a few that have the ability to process through ContiLink.

Order Tracking

Whether you need to check product availability, place an order, track shipping or monitor backorder reports, ContiLink has your needs covered.

Marketing Needs

As a Continental dealer, you can purchase sales literature and point-of-sale material for your showroom anytime, or download digital copies in PDF format. Simply log into ContiLink and click on the Marketing Suite banner.

National Accounts & Government Claims

Through the National Accounts and Government Claims section of ContiLink, you can submit delivery receipts, review customer requirements, submit government claims and more.

Training Center

Gain access to Engage360° Training, our online training center that covers everything from product information to tire basics to sales scenarios much more!

Financial

Through ContiLink's Financial feature, you have the ability to view real-time debits/credits on open items and print, email or save copies of invoices, statements and credit memos.

Emergency Road Service Tracking

With detailed reporting from Continental's TrukFix emergency road service program, you can see at a glance your acceptance rates for calls and opportunities to increase service revenue with Continental.

LOG ON TO WWW.CONTILINK.COM TODAY!

Administration

ContiLink gives Dealers the flexibility to update their profiles. Keep your dealer location information up to date, and edit users and user information as needed.

Digital Downloads

Need instant access to Continental resources? Visit the Marketing section of the ContiLink site and download digital copies of the literature you need, including your Dealer Marketing Program book.

Live Chat

Chat with a Truck Tires Inside Sales representative or a National Account specialist to check your orders or if you have a question about a delivery receipt. Get the information you need when you need it.

Dealer Marketing Suite

A one-stop shop for all your marketing needs.

Marketing Suite Features:

- » Latest literature for all brands
- » Point-of-sale and promotional items
- » Custom flyers for your event
- » All forms including D-9 and Warranty

THE DEALER MARKETING SUITE OFFERS FREE AND PAID SERVICES:

- » Download PDF documents for free
- » Order printed literature, forms, and promo items with a credit card

HOW TO ACCESS:

1. Log into ContiLink (www.contilink.com)
2. Scroll down until you see the “**Dealer Marketing Suite**”
3. Click on “**Read More**”
4. The Dealer Marketing Suite will open and allow you to browse items!

First Time Login:

1. Log into ContiLink (www.contilink.com)
2. Scroll down until you see the “**Dealer Marketing Suite**”
3. Click on “**Read More**”
4. You will receive a message that your Dealer Marketing Suite account has been requested. The account will be created within a few hours.

Don't forget! The ContiTireDrive app gives you access to PDF literature for all brands on your mobile device.
